Marking Stamp: 1.5" x 0.75"

## METAL ETCHING MADE EASY

The Mark M is our signature low-volume manual marking machine, used for a wide range of etching jobs. Popular among knife-makers and gun-smiths, the Mark M allows for clean surface etches and clear deep etches on a variety of metals. Simple to operate, with output settings for 12V, 24V, AC, and DC currents, the Mark M makes it easy to mark your pieces with anything from serial codes and part numbers to logos and maker's marks.

The Mark M system is priced at \$375 and includes the Mark M machine, base, marking stamp, and cables, manufactured and shipped from our facility in New Bedford, MA. Give us a call at (508)-997-3200, or visit us at [www.tustechshop.com](http://www.tustechshop.com) to get started!

## ADDITIONAL MATERIALS

In need of stencils, electrolyte, neutralite, or marking felt for your Mark M machine? Please contact us, or check out our shop at [www.tustechshop.com](http://www.tustechshop.com), to learn more. We'd love to help with any and all of your marking needs!
